PANELISTS

Panel 1:

Steve PANNIFER
COO

Consult Hyperion www.chyp.com/

Steve is an identity technology and security expert. He works for banks, mobile operators and leading technology companies on digital identity strategy. He has had involvement in UK Verify and contributed to several OIX projects, and has more than a passing interest in blockchain related identity initiatives.

Mari PEDAK
Senior Consultant, Digital Identity Expert

e-Governance Academy, Estonia www.ega.ee/

A top civil servant in Estonian Government for 22 years, including the Director General of the Citizenship and Migration Board, Mari spearheads Estonia's flagship identity and authentication policies. As a Senior Consultant of the e-Governance Academy her main tasks are planning and implementing Estonia's e-government and e-identity programs.

Didier SERRA
EVP Sales & Marketing

SecureKey www.securekey.com/

Didier Serra, EVP Sales & Marketing, leads all of SecureKey's market facing activities including sales, channel partnerships, technology partnerships, marketing, and program delivery. He brings SecureKey two decades of experience in contactless, near field communication (NFC), secure microprocessors together with broad engineering, operational, sales and marketing experience in international markets.

David RENNIE
Lead Technical Architect, Identity Assurance Programme

Government Digital Service, UK Cabinet Office gds.blog.gov.uk/about/

David Rennie is Head of Industry Engagement for GOV.UK Verify, the UK Government's federated digital identity service. Prior to joining the GOV.UK Verify team he was with UK Home Office's Identity Card Programme.

PANELISTS **Panel 2:**

Jon SHAMAH
Chair at EEMA; www.eema.org
Advisory Board Member at Trust in Digital Life www.trustindigitallife.eu/

Chair of EEMA and a recognised international digital Identity & trust subject matter expert, Jon specialises in maximising the technology and operational value chain of very large scale e-ID programmes. He contributes to European Programs such as TDL, ATTPS, ECIM, and FutureID, FutureTrust and LIGHTest. In addition, Jon is former co-chairman of ITU-T, SG17, Joint-Coordination for IDM, and is currently a registered expert at ENISA for Cyber standards coordination.

Alexis NORMAND
Healthcare Development Director
Withings www.withings.com/

Head of Withings healthcare division, Alexis is in charge of promoting adoption of connected devices among the general public and industry influencers. He drives new health-centric business models for pharmaceutical companies, doctors, researchers and companies who want to promote employee health.

Vincent BOUATOU
VP Business Development, Biometric Technologies
Safran Identity & Security www.safran-identity-security.com

Vincent has led several research programs dedicated to the development and improvement of Safran proprietary biometric technology. He managed the initial research program leading to the integration of iris recognition technology in Safran's portfolio and managed a world-class research team in charge of fingerprint recognition technology. Since Jan 1st 2016, he has led Safran's Innovation & Business Support Group.

David ROINE
Connected Car Product Group Marketing Manager
Valeo <http://www.valeo.com/en>

David Roine is in charge of the product marketing of Connected car BG in Valeo. Valeo is an Automotive supplier, partner to all automakers worldwide. As a technology company, Valeo proposes innovative products and systems that contribute to the reduction of CO2 emissions, the improvement of vehicle performance and to the development of intuitive driving. Valeo is spearheading the new initiatives that drive safety, security and confidence for the next generation of connected cars.

Janne JUTILA
Director of Commercial, Government and Regulatory issues
GSMA www.gsma.com/

Focused on GSMA's Personal Data and Mobile Identity program since 2013, Janne has helped make Mobile Connect the new standard in digital security across several countries. His current role is Director, Head of Commercial, Government and Regulatory Issues. Before GSMA he headed up New Services & Markets business at Elisa, the largest telecom operator in Finland.
